Markets Are Quiet—Wheat and Oats Show Some Activity.

CORN MARKET IS QUIET BUT FIRM

Liquidation of May is Feature in Oats Market—Provisions Are Quiet, the Main Demand Being for Lard—Hogs Are Easier.

CHICAGO, April 27.—There was a change of sentiment to the bull view today and the news was encouraging to that way of looking at the wheat situation. Wheat closed 1/2c higher, corn 1/4c lower. Provisions closed 2 1/2c to 1/2c improved. Trade in all the pits was rather quiet, with spots of activity in wheat and corn.

The wheat market opened 1/2c higher yesterday because of higher cables from Liverpool and the Argentine shipments, which showed a decrease of over 3,000,000 bushels last week. There was a shifting of sentiment apparent early and it grew as the season progressed. The talent has been bearish for months and very much disposed to hearken to Liverpool. Also they were saturated with the oft-repeated reports of the wonderfully good condition of home crop prospects. Today the talk was that Liverpool had been wrong on cotton and that it didn't seem to show a proper respect for the American market fluctuation. Instead it acted very independently. Accordingly the talk today was that the English market as a maker of Chicago quotations could no longer be trusted. The local situation was given the proper showing of Indiana, Ohio and Michigan and the probability of 25 per cent of a crop in these states discussed; the report of the Illinois and the reports that apprehension over the dry winds in France was felt in that country and that Argentine arrivals from the interior were lessening were given due consideration. The result was a firm, if quiet, market. There was considerable changing at the 1 1/2c difference between May and July. The shipping demand was slack and the export country poor. New York having but 5 loads for export. Atlantic port clearances in wheat and flour were equal to 414,000 bushels. Primary receipts were 240,000 bushels, against 200,000 a year ago. The cash market was quiet but firm. A good business was done, but it was without special features. Argentine shipments were very small. Country receipts were also very small. Some reports of delayed planting, although the rains have generally been received, were given. The market ranged from 1/2c to 1/4c higher at 10c. The easing from the 10c was on profit-taking. The cash demand was moderate.

The liquidation of May was the feature in the oat market. There was a good demand for cash and 100,000 bushels were taken for shipment. At the bottom there was fair buying, which had a steady effect, and the close was steady. May ranged from 1/2c to 1/4c higher at 10c. The easing from the 10c was on profit-taking. The cash demand was moderate.

Provisions were quiet, the main demand being for lard. Hogs were easier, which had a depressing effect early, but a good general demand developed later and the what and corn strength was a help under the market stragglers and closed firm. July pork sold at 12 1/2c and 12 1/2c and closed 1/2c higher at 10c. July lard between 12 1/2c and 12 1/2c, closing 1/2c improved at 12 1/2c, and July ribs between 11 1/2c and 11 1/2c, with the close 2 1/2c higher at 10c.

Estimated receipts tomorrow: Wheat, 20

Table with columns: Article, Open, High, Low, Close, Yesterday. Rows include Wheat, Corn, Oats, Pork, Lard, Hogs, etc.
